

Seminar

Organic Semiconductor Design for Wearable Electronics and Regenerative Medicine

講師 : Dr. Bob C. Schroeder
Associate Professor
University College London
<https://schroedergroup.org>

日時 : 2023年11月9日 (木) 15:00~16:30

場所 : 工学部114講義室

講演概要 :

Bob will discuss some recent advancements in the synthesis of organic semiconductors, focusing not only on exploiting their electronic properties but also on modulating their mechanical properties. This approach aims to facilitate seamless integration with biological substrates in wearable electronics and regenerative medicine.
